

Fair Consultation Day

On fair day a stall was taken to engage with villagers and visitors their views on the village, although the day was cold many people stopped to look at the map and photographs, several discussions took place with individuals, groups and families.

During the day three charts were available for comments and ideas, headed 'I Like', 'I Do Not Like' and 'Improve'. The 'post it' notes were colour coded for residents and visitors. Here are the comments received copied directly:

I Like - Residents :

Lots of Mature Trees

Like it as it is no more development.

Friendly Neighbours

Quiet and Peaceful

Attractive Environment

Its Ruralness

Fair

Friendly

Community Spirit

Beautiful Church

No Shops

No Pub

Nice Quiet

Santon – Open Views and Wildlife

Santon – Route through Works into Scunthorpe

Vicarage Park – Open aspect Covenant on buildings – needs to be retained

People move to Appleby because they are buying into a rural idyll

I Like -Non Residents

Nice Houses

Appleby just the way it is

Beautiful Village – very friendly and picturesque

Love Appleby Fair

Buildings Nice Character.

I Do Not Like - Resident

Busy through traffic

Lack of measures to control the speed of traffic on Ermine Street

Paths near bungalows – can not walk on pavements

Some careless or deliberate unconcern for road verges – damage caused by vehicles

People not cleaning up after their dogs

Lack of Public Transport North Lincs Council needs to review how it uses its bus subsidy

Village should not be bigger

People do not always look after their hedges

Houses not in keeping

Dog fouling on Pavements by some mismanaged dogs. Not Cleaned up

Some Estate Properties left very badly looked after,

Santon - Limit HGV thoroughfare

Santon – 2-3 years Temp traffic signs and Traffic system how temp is temp is temporary

Do not do one way in Appleby as it speeds up traffic.

North Lincs homes Chemical spray (illegal?) under hedges- not strimmed

I Do Not Like - Non Resident

No Shops

Improve - Resident

Speed Cameras permanent

Improve lighting in the villages as it must have been the same since gas lamps were in the village! Thank you

Risby Road Pot holes

Speeding Haytons Lane

We should have suggestions/ requests board outside the village

Improve and create cycle paths

Housing available affordable housing

More activities

Maybe we should have broadband/ W-Fi in the village Hall

Tree near post box on School Lane too big and dangerous

Parking around Keb corner Housing

Farmers Market

New People join village life

One way in- Paul Lane out - Beck Lane

Put in hard surfaces to the entrances to the playing field

There should be an overall 20 mph speed limit in all village roads (except Ermine Street)

Farm Shop

Community Spirit

Better use of Village Hall

Village Pond and garden

Santon - Make outside of houses look better

The village is in visual decline especially when you compare us with Elsham and Redbourn.

Needs reversing perhaps with some form of contract village gardener who takes care of the no-man areas in the village which are becoming neglected.

I would like to see people take more care of the areas immediately in front of their properties

I would like to see the grass verges kept in a better state of cutting

I would like to see the hedges around the village better cared for and cut properly

Are we doing enough to collectively protect the parish assets?

Protect the meadow opposite the church from house building

As the Winn family are major stakeholders in the Village / Parish should they be invited to participate in this process especially as they seem to have very little interest in the state of their properties and areas around the village?

Improve - Non Resident

Trim Hedges more

Pub

Slow traffic on main roads

Busy fast traffic

Buses

Not enough buses

Shop and pub

Must have a shop

Shop and pub

Speed Camera on Ermine Street

Hedges need trimming

Fish and Chip shop

Notes

The Stall was manned by Derek Hall, John Owston and Joy Powell

Thanks to Alan Palmer for the photographs, Grant Dudson for design boards and Pam Hall for help setting up and dismantling
